# Filipe Medeiros

Me

My name is Filipe, I'm a full stack dev (with heavy preference for frontend). I'm currently based in Lisbon, although I have plans for a couple of years abroad (maybe Spain)! I love all things tech, design, politics, economics (#DoughnutEconomics) and travelling! I also like playing basketball and the occasional frisbee.

My past

Uni (Computer Science MsC)

2021

Frontstack dev @ Emma

2019

Fullstack dev @ Farfetch

2022

My present

I'm currently at the end of a "sabbatical semester" where I focused on myself and my loved ones, discovering what I want to do, and developing some personal projects. It's been very fun :)

My future

- Start my own company
- Travel more (especially outside of Europe)
- Go back to uni
- Eventually maybe change careers!

Tech

this is probably what you want!

- Web (HTML, CSS, JS, APIs, etc)
- React and Next.js
- Node
- I know a bit of everything (DBs, SEO, DevOps, etc)
